COMPANY INTRODUCTIONS

ORAMA Safety And Security System L.L.C is one of the most trusted name in the market of fire protection. Orama is operation all across UAE. The main features of its development are dynamic growth, prosperity and stability. since 2009 company specializing in the field of fire protection (installation and maintenance)

Quality has always been a prime focus of Orama operations. It has always invested in the area where ever there is even a bleak change of improvement in quality services. starting from the selection of trained and professional and purchase of state or the art equipment, access to latest technological development and standards — to continuous training and workshops to train our professional staff, Orama has turned every stone to make our installation quicker, safer and economical

Now we are happy to say that we have the resources available to fulfill your business needs in more professional manner

We have strong back office operational staff to handle the day to day matters of on-going projects (like coordination with project teams and clients, material management, work force management, reporting, handling customer complaints and requirements etc.)

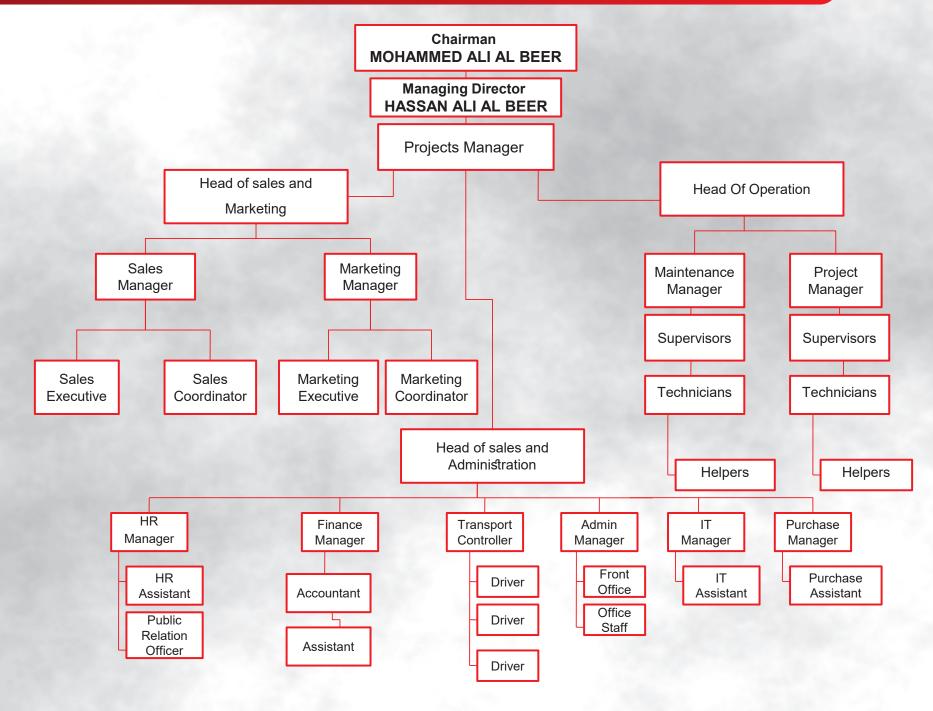

MANAGING DIRECTOR MESSAGE

Orama Contracting L.L.C has positioned itself as uniquely as a progressive, dynamic and forward looking organization. We successfully introduced a unique portfolio of products and services that cater its distinguished clients with full customer satisfactions.

I am full of optimism and confidence leading an organization which appreciate its customer needs and requirements to create a fulfilling experience for them, I am sure that you will find this rapidly growing organization the ideal consultants and partners to manage your needs effectively and together we shall build a concrete business relationship.

Our vision is very clear and the team is focused and experienced. The team has on hand experience of designing and delivering the project within prescribed time limit. We have our own well developed and monitored quality and safety policy which we adhere at all stages of execution, this is the reason we are able to deliver the quality services and backup support to our valued customers
